

Actors

- Parent (needed for children unable to set up the game)
- Child
 - Independent (capable of set up)
 - Dependent (incapable of set up)

User Stories

- As an independent child, I can launch the game on my device to view the opening sequence or skip it by pressing the skip button
- As an independent child, I can choose the difficulty to play the game on by selecting it from the main menu
- As an independent child, I can view the high scores of the previous players by clicking the high scores button from the main menu
- As an independent child, I can select the character that I want to play the game as by clicking him or her
- As an independent child, I can watch the tutorial or skip it by clicking the skip button
- As an independent child, I can play through the game level, defeating the bad guys by unscrambling the words that appear when they are encountered
- As an independent child, I can move from my current game map to the next in my difficulty, or view my high score and return to the menu if I beat the last map in the level
- As an independent child, I can choose to continue playing or to exit the game
- As a Parent, I can set up the game for my child, queuing up the application so that it is ready to be played by my child incapable of doing so alone
- As a dependent child, I can play through the game sequences that follow the difficulty selection, same as the independent child

#	Name	Priority	Description
1	Launch Game	High	On opening, the game should display the opening sequence and splash screen that leads to the main menu
2	Choose Difficulty	High	Select the difficulty of the game, should change the pool of words to be used in the game and the game maps
3	View High Scores	Low	View the high scores for each difficulty level
4	Character Select	High	Determine if I will play through this game session as the male or female character by clicking him or her
5	Tutorial	Medium	Make the decision to go through the tutorial or

			skip straight to the gameplay
6	Play Level	High	Play through the level on the difficulty I chose and go through the stages of gameplay until I either beat the level or lose the game
7	Play Again	High	Decide after beating or losing a level if I want to continue playing either on the same or a different difficulty
8	Cease Play	High	Exit the game and cease playing
